

Taking Care of Baby and Me®

Pregnancy-and-beyond resource guide

Support at each stage of pregnancy and delivery

A healthy pregnancy is a team effort. You took an important step to make informed decisions about your healthcare by joining Wellpoint.

While you are on your pregnancy journey, this guide can teach you about plan benefits and resources to support your well-being. You are not going through this alone. We are ready to answer any questions you may have along the way. You can call our Member Services team or 24-hour Nurse HelpLine at any time, day or night.

Here are a few steps to take as you prepare to welcome your baby into the world:

To stay healthy in your pregnancy, set up a visit with your OB provider

An obstetrical provider (OB) is a medical expert in pregnancy care. You will see this provider for prenatal visits during your pregnancy and after you give birth. When you visit your OB, they'll work with you to determine your health risks. Your OB will help you set up the appointments you need to monitor you and your baby throughout pregnancy.

During your visits, your OB can answer your questions about pregnancy and delivery, including topics such as:

- Foods to eat or avoid
- Safe exercises
- Medicines
- Birth options
- Mood changes
- Feeding
- Family planning

To keep your benefits, tell NJ FamilyCare you're pregnant and apply to have your baby covered by Medicaid

What questions do you have for your OB?

You can write them below to take with you to your next visit:

1. _____

2. _____

3. _____

4. _____

5. _____

You can use the Find a Doctor tool on our website to find an OB near you.

Healthy Rewards

You can earn rewards for going to your health visits. You can redeem your Healthy Rewards with gift cards from a list of stores on your Benefit Reward Hub. To join the Healthy Rewards program, visit your benefits page at wellpoint.com/nj/medicaid. From here, you can log in to your Benefit Reward Hub and visit the Healthy Rewards portal. You also can call 888-990-8681 (TTY 711), Monday through Friday from 9 a.m. to 8 p.m. Eastern time.

If you have both Medicare and Medicaid (dual benefits), you may not qualify for Healthy Rewards. The Centers for Medicare & Medicaid Services (CMS) has rules for dual benefits. Please call Member Services to find out which benefits apply to you.

My Advocate®

My Advocate is a health program that makes your care personal. The program starts with a health screener meant to help us find out more about you. The answers you give during the screener inform us of how to provide you with the best level of support based on your health needs. You may participate in My Advocate by phone, through the smartphone app, or on the web.

You can choose how you want to receive updates: by mobile app, website, or weekly calls from MaryBeth, your virtual pregnancy coach.

When you join My Advocate, you'll receive a screening call from MaryBeth, your virtual pregnancy coach. She will ask questions about your health and pregnancy to see if you could benefit from care management. If you want a referral for care management, please call Member Services to ask for one.

To join My Advocate, download My Advocate in your app store or create an account at myadvocatehelps.com.

Healthy pregnancy and safe delivery

Your choices throughout pregnancy can lead to a healthy pregnancy and safe delivery of your baby. You can be confident knowing your wellness team is here for you.

During visits with your OB, they will help you prepare for your baby's birth. Together, you can make a birth plan, talk through your questions, and find ways to help you gain peace of mind about your care.

Wellpoint also covers doula services. A doula is a non-clinical companion that can support you through your pregnancy.

Our 24-hour Nurse HelpLine is ready 24/7 to answer any health questions, even when your OB's office is closed.

Extra support

You can receive one-on-one support with a nurse who learns about your personal health needs and pregnancy through our care management program.

Your OB care manager can help you set up health visits, find community resources, and partner with you to make informed decisions before and after you deliver.

Helpful resources:

- Health A to Z: Are you looking to learn about pregnancy and health topics? Search for your health topic in Health A to Z at wellpoint.com/nj/medicaid.
- Show your love: This app has steps to keep you and your baby healthy. Download Show your love in your app store today.

With My Advocate, MaryBeth makes it easy to connect with your care manager. She will let your care manager know right away if you have any questions or concerns. Your care manager will follow up with you.

Substance use and pregnancy

There is no safe amount of alcohol, tobacco, or drugs to use when you are pregnant. Your OB's priority is to make sure both you and your baby are healthy. We encourage you to talk openly with your OB about the substances you are taking. They can work with you to make a safe plan to stop using alcohol, tobacco, and drugs that can harm you and your baby.

Helpful resources:

- National Smoking Quitline: This toll-free number is run by the National Cancer Institute. It connects you to services to help you quit smoking or quit using other tobacco products. Call 24/7 at 800-784-8669 (TTY 711).
- Smoke-Free Women: This website provides support, tips, tools, and expert advice to help you quit smoking. Visit women.smokefree.gov.
- Substance Abuse and Mental Health Services (SAMHSA) National Helpline: This free helpline offers treatment referral for people facing mental health or substance use problems. You can call SAMHSA 24/7 at 800-662-4357 (TTY 711).
- REACH NJ: This referral service connects you with the addiction recovery and support services available in New Jersey. Visit nj211.org to read about the service. You also can call 211 or 844-732-2465.
- NJ Addiction Services Hotline: 844-276-2777

It is helpful to find a provider (pediatrician) you trust for your baby before you deliver. You can use the Find a Doctor tool on the Wellpoint website to search for one.

- Smokefree.gov: Support, tips, tools, and expert advice to help quit smoking.

Your birth plan

A birth plan helps make sure your choices are respected during labor and delivery. Your birth plan describes what you want to the provider and nurses who help deliver your baby. It can include the types of medicine you do or do not want to take, who you want to be in the room with you when you have your baby, and any religious or cultural practices you follow.

Making a birth plan can help you feel better prepared for labor and delivery.

Below are questions to answer to start your birth plan:

Where do you want to have your baby?

Do you want skin-to-skin contact with your baby within an hour of birth (recommended)?

Who do you want in the room with you during labor and delivery?

Are there any traditions you want for your baby's birth?

Who do you want to cut the umbilical cord?

For a sample birth plan, go to marchofdimas.org, go to *Health Topics*, and visit the *Labor and Delivery* section.

Caring for yourself and your baby

In your follow-up visit with your OB after your baby's birth, they will make sure your body is healing and help you adjust to life with a newborn. It's best to see them within 1 to 3 weeks, but no later than 12 weeks after delivery. Your provider may want to see you sooner than three weeks if you had a high-risk pregnancy or delivered by C-section.

You can earn Healthy Rewards for going to this postpartum visit.

With My Advocate, you can receive tips from MaryBeth or online to help you with self-care, recovery, stress management, and support with parenting.

If your Medicaid coverage will end after your baby's birth, plan your postpartum visit before you lose coverage. You can call NJ FamilyCare at 800-701-0710 (TTY 800-701-0720) to ask about keeping your coverage.

Well-baby care

Your baby's primary care provider (PCP) can provide the best care by working closely with you. For the first year of life, the American Academy of Pediatrics suggests your baby have a checkup at birth, 3 to 5 days old, and at 1, 2, 4, 6, 9, 12, 15, 18, 24, and 30 months old.¹

You may earn Healthy Rewards for taking your baby to their health visits. Log in to your Benefit Reward Hub at wellpoint.com/nj/medicaid or call 888-990-8681 (TTY 711) to see if you qualify.

Helpful resources:

- Centers for Disease Control and Prevention (CDC): You can track child development at cdc.gov/ncbddd/actearly/index.html.

With My Advocate, MaryBeth will teach you about vaccines (shots) and your baby's well-child visits.

- March of Dimes: Read about the latest research and topics to keep you and your baby healthy at marchofdimes.org.
- CDC Milestone tracker: Track your baby's milestones from age 2 months to 5 years. Download the CDC Milestone tracker in your app store today.

¹ American Academy of Pediatrics website, Recommendations of Preventative Pediatric Health Care (accessed September 2020): downloads.aap.org/AAP/PDF/periodicity_schedule.pdf.

Breastfeeding

Breastfeeding is a healthy decision to make for your baby's growth and development. The American Academy of Pediatrics suggests that babies are only breastfed for at least the first six months of their lives, unless you have a medical reason not to breastfeed.

Helpful resources:

- Women, Infants, and Children (WIC): WIC provides community support for breastfeeding. Learn how to apply in the Community Resources section of this guide.
- La Leche League International: This program provides mother-to-mother breastfeeding support, encouragement, and education. To find your local league, visit llli.org.
- Infant Risk Center: Find answers to your questions about breastfeeding and medicines. Call 806-352-2519 (TTY 711) or visit infantrisk.com.

Neonatal intensive care unit

The neonatal intensive care unit (NICU) is a unit in the hospital for babies who need special care after birth. If your baby is premature at birth or you had a high-risk pregnancy, your baby may need to stay in the NICU. A team of trained providers will work with your baby to help them fully recover.

You can trust your care manager in our NICU Case Management program to support you while your baby is in the NICU. We are committed to making sure all of our high-risk infants have a detailed plan for care in the NICU and a safe transition home. If you have any questions about the NICU Case Management program, please call Member Services for help.

Helpful resources:

- Graham's Foundation: Provides support, advocacy, and research for preemies and their families. Visit grahamsfoundation.org.
- My NICU Baby: Created with the March of Dimes to provide answers, tools, and support for families of a NICU baby.

Wellpoint may cover the cost of a breast pump.

Visit breastpumpsmedline.com to choose a breast pump, receive breastfeeding tips, watch how-to videos, and talk to a lactation support professional. Individuals are eligible for a breast-pump for each pregnancy.

Call 911 right away if you feel like hurting yourself or your baby. You also can call the NJ Behavioral Health Member Crisis Line at 877-842-7187 (TTY 711) 24/7.

Postpartum depression

Postpartum depression (PPD) is common and treatable. According to the CDC, about 1 in 8 women experience symptoms of postpartum depression.²

You may be experiencing PPD if you:

- Feel anxious or depressed most of the day every day.
- Have trouble bonding with your baby.
- Do not feel better two weeks after giving birth.

By asking for help, you are taking the first step to heal. Your provider can make a support plan for you if you are willing to share how you feel. Your emotional well-being is just as important as your physical health.

Helpful resources:

- Postpartum Support International: Visit postpartum.net or call 800-944-4773 (TTY 711) 24/7 and follow the prompts to be connected with someone.
- What to Expect: Visit whattoexpect.com and search “postpartum depression.”

With My Advocate, you can receive tips from MaryBeth or online to help you cope with mood changes.

Family planning

If you want to have another baby, you should talk to your provider before you try to become pregnant again. Having a pregnancy too soon after you give birth may cause your next pregnancy to be high-risk for an early delivery or preterm birth. It’s best to wait at least 18 months between pregnancies. Your body needs proper time to heal and recover.³

Until you are ready for another pregnancy, you can choose from many birth control options. The long-acting reversible birth control (LARC) is one method to avoid pregnancy. LARC is a device that your provider places inside your arm or uterus. It stays in place until you want it taken out. Talk with your provider about the best options for you and how they may affect your body. Our 24-hour Nurse HelpLine can answer any questions you have about the method you choose. You should call Member Services to ask about your benefits for birth control.

If you have any health conditions or take any medicines, you should also talk to your provider about how they can affect your next pregnancy. They may suggest you take a prenatal vitamin with folic acid before you become pregnant to protect your baby’s health.⁴

You can read about family planning at cdc.gov by searching “preconception.” You also can search “contraception” for birth control methods.

With My Advocate, you can receive tips from MaryBeth or online to help you with family planning and birth control options.

Helpful resources:

- Office on Women’s Health: You can visit the website at womenshealth.gov or call 800-994-9662 (TDD 888-220-5446) with questions about health topics or their special programs.
- Long-acting reversible contraception (LARC) devices: You can read more about IUDs and implants at whoopsproof.org.

Health coverage for you and your baby

Our goal is to keep you and your baby healthy. You or your baby could lose coverage with Wellpoint after birth. To keep your baby covered, it is best to tell NJ FamilyCare about your pregnancy before and after you deliver by calling 800-701-0710 (TTY 800-701-0720).

You want to make sure you stay enrolled as well every year by following these steps:

1. Either NJ FamilyCare or your County Welfare Agency (CWA) will send you a form to renew your benefits.
2. The form will tell you what your renewal date is and what steps to follow.
3. Fill out the form and send it back to NJ FamilyCare or the CWA before your renewal date (at least 30 days before your last day of benefits).

If you have any questions, Wellpoint can help. Call toll free at 833-731-2147 (TTY 711). Members can also call NJ FamilyCare at 800-701-0710 (TTY 800-701-0720) with renewal questions.

Community resources

Do you need help paying bills or finding food or housing? We partner with local organizations to help you find resources for assistance. When you type in your ZIP code at wellpoint.com/nj/medicaid/community-support, you can find local organizations near you.

Women, Infants, and Children (WIC)

WIC is a program that provides many resources to families with children. You can receive food vouchers, health education, and peer counseling for moral support in parenting.

To read about the program and find out if you qualify:

1. Visit fns.usda.gov/wic.
2. Go to *How to Apply*.
3. Search for your state's toll-free number or visit state.nj.us/health/fhs/wic.

Lead testing

Lead can poison your baby if you breathe or ingest it. It can be found in lead paint and dust in older homes, flaking paint chips, glazed pots, or even tap water. You can talk to your provider about any concerns you may have about lead. You can also visit the New Jersey Department of Health website at state.nj.us/health/childhoodlead to learn about the effects of lead.

CenteringPregnancy™

There's a new way to receive prenatal care. It's called CenteringPregnancy. It allows a group setting with other parents for discussion with your OB and nurse. With CenteringPregnancy:

- You can go to your prenatal visits with other parents who are at the same or similar time in their pregnancies.
- You meet as a group and share with each other to learn about pregnancy.
- You have 10 prenatal visits that last up to two hours long and include private time with your OB.

Call our 24-hour Nurse HelpLine to find out if there is a CenteringPregnancy site close to you.

Nurse-Family Partnership — Helping First-Time Parents Succeed®

Are you a first-time parent in your first or second stage of pregnancy (trimester)? If yes, Nurse-Family Partnership may be a great resource for you. A nurse will come to your home to offer support throughout your pregnancy and until your baby is 2 years old. To read about the program or see if there is a site near you, visit: nursefamilypartnership.org.

Healthy Families America (HFA)

This program provides home visit services and community support referrals for your family. You can receive help with support groups, prenatal and postpartum care, child development, and family goal planning. To find an HFA site near you, visit healthyfamiliesamerica.org or call 312-663-3520.
